

HEARING LOOPS IN THORNBURY

Do you have hearing aids ?

Do you have difficulty in hearing accurately or understanding speech in the presence of other noise ?

A Hearing Loop provides an additional signal, detected by T-coils in hearing aids, which assist the understanding of speech.

The Rotary Club of Thornbury, in association with "Hearing Link", has surveyed premises in the town under the "Let's Loop the UK" campaign. The list opposite summarises those premises where effective hearing loops were found.

Premises where hearing loops are available should display this sign (inc. the "T")

Hearing Link is a UK Charity with a head Office at 27-28 the Waterfront, Eastbourne East Sussex BN23 5UZ/.
